and cocoa beans

Suitable for a medium to large
laboratories, chocolatiers
and patisseries

Third component of the Selmi Bean to Bar range, this machine has the specific task of grinding the cocoa nibs in particles of size between 200 and 250 microns. The product, once inserted into the hopper, is crushed by stainless steel pins to obtain a "pre-refined" paste. Versatility and ease of use allow this machine to be used also for the refining of dried fruit, constituting an excellent alternative to the vertical cutter.
